How to prepare an analysis of the faculty's research achievements?

Kate Patyrak // May 11 2021 // 52 mins

Evaluation and other assessment processes are a challenge for universities and researchers. In this process, it is worth using all the options available. We would like to share what information the Scopus database can provide us, and what we can find in the SciVal tool.

During this webinar, you will learn:

What data is available in Scopus, and how you can grab it.

How to use SciVal in the various evaluation and data processes.

How to create University structures

How to find necessary metrics
